Josper®
CHARCOAL OVENS

Horno Brasa HJX45L

- Obtener mucho más control sobre el calor.
- Ahorrar en carbón (amortización del horno en 1 año y medio)
- Mucha más rapidez que una barbacoa tradicional.
- Doble función de horno y parrilla.
- Reducir en gran medida las llamas
  (previniendo que se ahúmen o resequen los alimentos)

Más de 22.000 clientes y 43 años en el mercado es nuestra mejor garantía.

JOSPER BY WOOD STONE
CHARCOAL BROILER OVEN

Josper by Wood Stone 3728 Shown

Job Name	
Model	WS-CBO-(2728,3728,3738)
Item#	
Fuel Type	**Charcoal-Fired**

The Josper by Wood Stone Charcoal Broiler Oven provides an elegant solid fuel charcoal broiler solution in an oven package - and without the venting capture challenges most often associated with conventional solid-fuel charbroilers.

The Josper by Wood Stone Charcoal Broiler Oven comes with two adjustable broiler racks that allow the chef to cook a wide variety of meats and vegetables in the unit simultaneously, making this versatile piece of equipment capable of very high production.

By combining the features of an enclosed oven with the traditional characteristics of charbroiled cooking, this piece offers efficiency in utilizing the heat produced by the charcoal. The dual damper system helps minimize charcoal consumption while allowing the unit to maintain high cooking temperatures for extended periods of time, and helps to greatly influence and enhance the flavor profile of the foods being cooked.

The Josper by Wood Stone Charcoal Broiler Oven sits on a heavy-duty stainless steel cabinet that incorporates an easily removable ash collection system. The unit also ships with an oven-mounted firebreak, poker, brush and grill tongs. Other accessories are available.

The unit is ETL Listed with an 18-inch side and 6-inch back clearance to combustible construction.

The Josper by Wood Stone Charcoal Broiler Oven must be vented with a Listed Type 1 exhaust hood or one constructed in accordance with all relevant local and national codes. The oven must be vented as a solid fuel appliance, and in accordance with all relevant local and national codes, and in a manner acceptable to the authority having jurisdiction. See installation manual for additional information.

AVAILABLE IN 3 SIZES:

- WS-CBO-2728
- WS-CBO-3728
- WS-CBO-3738

JOSPER CAPACITY:

The Josper comes standard with (2) cooking grates. The upper grate is typically used for slower cooking items like roasted vegetables, fish and larger roasted meats. The lower grate is used for items requiring extremely intense heat - like steaks and seafood items.

OPTIONAL ACCESSORIES:

- Tray Support Models Available
- Custom Door Finishes
- Tongs
- T-Style Floor Brush
- Ash Tool
- Dual Compartment Ash Dolly
